

LEED for Commercial Interiors Technical Review Workshop Certification Requirements and Process

Are you ready to enter the rapidly growing green building market?

LEED® for Commercial Interiors is the green benchmark specifically for the tenant improvement market. Attend the LEED for Commercial Interiors Technical Review Workshop presented by the U.S. Green Building Council to gain the knowledge needed to enhance project performance, achieve certification and prepare for the LEED Professional Accreditation Exam.

WHY LEARN ABOUT LEED?

The USGBC's LEED for Commercial Interiors Green Building Rating System™ gives the power to make green interiors choices to tenants and designers, who do not always have control over whole building operations. You will learn how to successfully develop a high-performance interior that is a healthier place to work, is less costly to operate and maintain, and reduces the environmental footprint. The LEED for Commercial Interiors rating system is already being used across the country and demand for expertise continues to grow. Attend this technical review workshop and learn how to get involved with this growing trend.

WHO SHOULD ATTEND?

Industry professionals seeking to increase their understanding of the LEED for Commercial Interiors Rating System and green building strategies, benefits and resources:

- Tenants
- Contractors
- Developers
- Manufacturers
- Designers
- Consultants
- Engineers

WHAT'S COVERED

- LEED for Commercial Interiors:
